PARTNERSHIP TIERS

Pick the level of impact your church is ready to make.

Every partnership pairs your congregation with the resources, relationships, and systems to turn vision into citywide impact. Choose by how many projects you want to run each month — priced to your church's size.

How pricing works	By projects per month Your tier sets how many outreach projects we source, coordinate, and run alongside your team each month — from a single monthly project to a fully managed portfolio.	By church size Within each tier, your rate is scoped to your average weekend attendance and outreach capacity, so a 200-person church and a 1,500-person church each pay what fits.

- ✓ Dedicated Mission Link team
- ✓ Custom resource & logistics pipelines
- ✓ Multi-site & citywide strategy
- ✓ Corporate / CSR partner brokering
- ✓ Board-level impact reporting

Talk to us

EVERY PARTNERSHIP BEGINS HERE

Outreach Audit & Resource Unlock

A focused diagnostic that maps your three gaps — resources, relationships, systems — names the donated resources we can put to work in your city, and hands you a 90-day plan. The fastest way to see what a partnership unlocks.

One-time, from \$1,500 · credited toward your first three months

Most partners unlock more in donated food, supplies, and vehicles than they pay in fees.

Your fee buys the leadership and relationships. The resources we steward are ones you'd otherwise never raise or spend a dollar to buy.

Compare the tiers

A side-by-side look at what changes as you scale.

Rates shown are benchmarked starting points drawn from typical church missions budgets (most churches direct 10-15% of budget to outreach) and comparable managed-service models. Final pricing is set per church after the Outreach Audit, based on size, scope, and the resources available in your region.
